DALJEET SINGH

FULL SACK DEVELOPER

PERSONAL OBJECTIVE

Enthusiastic and detail-oriented MERN Stack Developer with hands-on experience in building production-level projects like E-commerce platforms and Advanced Chat Applications. Eager to contribute to team success by leveraging strong technical skills, a passion for learning, and a commitment to delivering high-quality solutions. Motivated to grow and excel in a professional environment

WORK EXPERIENCE

- Developed a full-stack E-commerce platform using MERN stack (MongoDB, Express.js, React, Node.js) with features like user authentication, product management, and payment integration.
- Built an Advanced Chat Application with real-time messaging using Socket.io, React, and Node.js.
- Created a personal portfolio website to showcase projects and skills.
- Hands-on experience with React hooks, state management, API integration, and Agile methodologies.

PROJECTS

E-commerce Platform (MERN Stack)

- Developed a fully functional e-commerce website with features like user authentication, product search, cart management, and payment integration.
- Utilized React for the frontend, Node.js and Express.js for the backend, and MongoDB for database management.

2. Advanced Chat Application

- Built a real-time chat application using Socket.io for instant messaging, with a responsive frontend designed using React and a scalable backend powered by Node.js.

3. Personal Portfolio Website

- Designed and developed a portfolio website to showcase projects, skills, and achievements, demonstrating proficiency in frontend design and backend integration.
